

Creative Custom Solutions

Bulk, OEM and Custom Services

A Meridian Life Science® Company

The PCR Company

Bioline is a primary manufacturer and developer of a wide range of molecular biology products, including ultra-pure nucleotides, DNA polymerases and mixes, DNA markers, competent cells, products for RNA analysis and general reagents for molecular biology.

For 20 years we have been providing custom-made solutions to industry and commercial partners, both large and small, for their specific product needs and we welcome new partners who wish to take advantage of our expertise and technologies. When the requirements for optimizing the performance of your application are beyond the scope of our standard product range, we invite you to use our custom-made, bulk and OEM services.

Excellence in biomanufacturing

Our state-of-the-art manufacturing sites are ISO 9001:2008 certified and we continuously strive to improve the excellence of our operational and quality assurance systems. All stages of the manufacturing process are controlled and monitored using stringent quality control procedures to guarantee the highest quality and lot-to-lot reproducibility.

Our competence in molecular biology reagent manufacturing includes extensive experience in bioreactors and fermentation, chemical synthesis, nucleotide chemistry, enzyme chemistry and purification, molecular biology methods, DNA and RNA purification, competent cell preparation, downstream processing on any scale, as well as product fill and finish.

Direct from the source

Bioline's portfolio of molecular biology reagents and kits include a wide range of products, many of which can be customized to fulfill your specific requirements. Looking for something specific? Provide us with your requirements and we will use our highly experienced product development and manufacturing resources to achieve your goals.

Nucleotides

- Superior quality nucleotides
- >99% pure by HPLC
- Validated for end-point PCR, RT-PCR, real-time PCR and cDNA synthesis

PCR enzymes

- Extensive range available, as stand-alone and in mixes
- Hot-start DNA polymerases
- Real-time PCR mixes
- DNA Polymerases for various applications
- High-fidelity DNA polymerases

RNA analysis enzymes

- Highly sensitive reverse transcriptases and kits
- One-step RT-PCR kit

Other enzymes

- RiboSafe RNase Inhibitor

DNA markers

- HyperLadder range of ready-to-use DNA markers
- Sizing and optional mass determination of DNA fragments from 25bp to 10,000bp
- Any combination of fragments is available

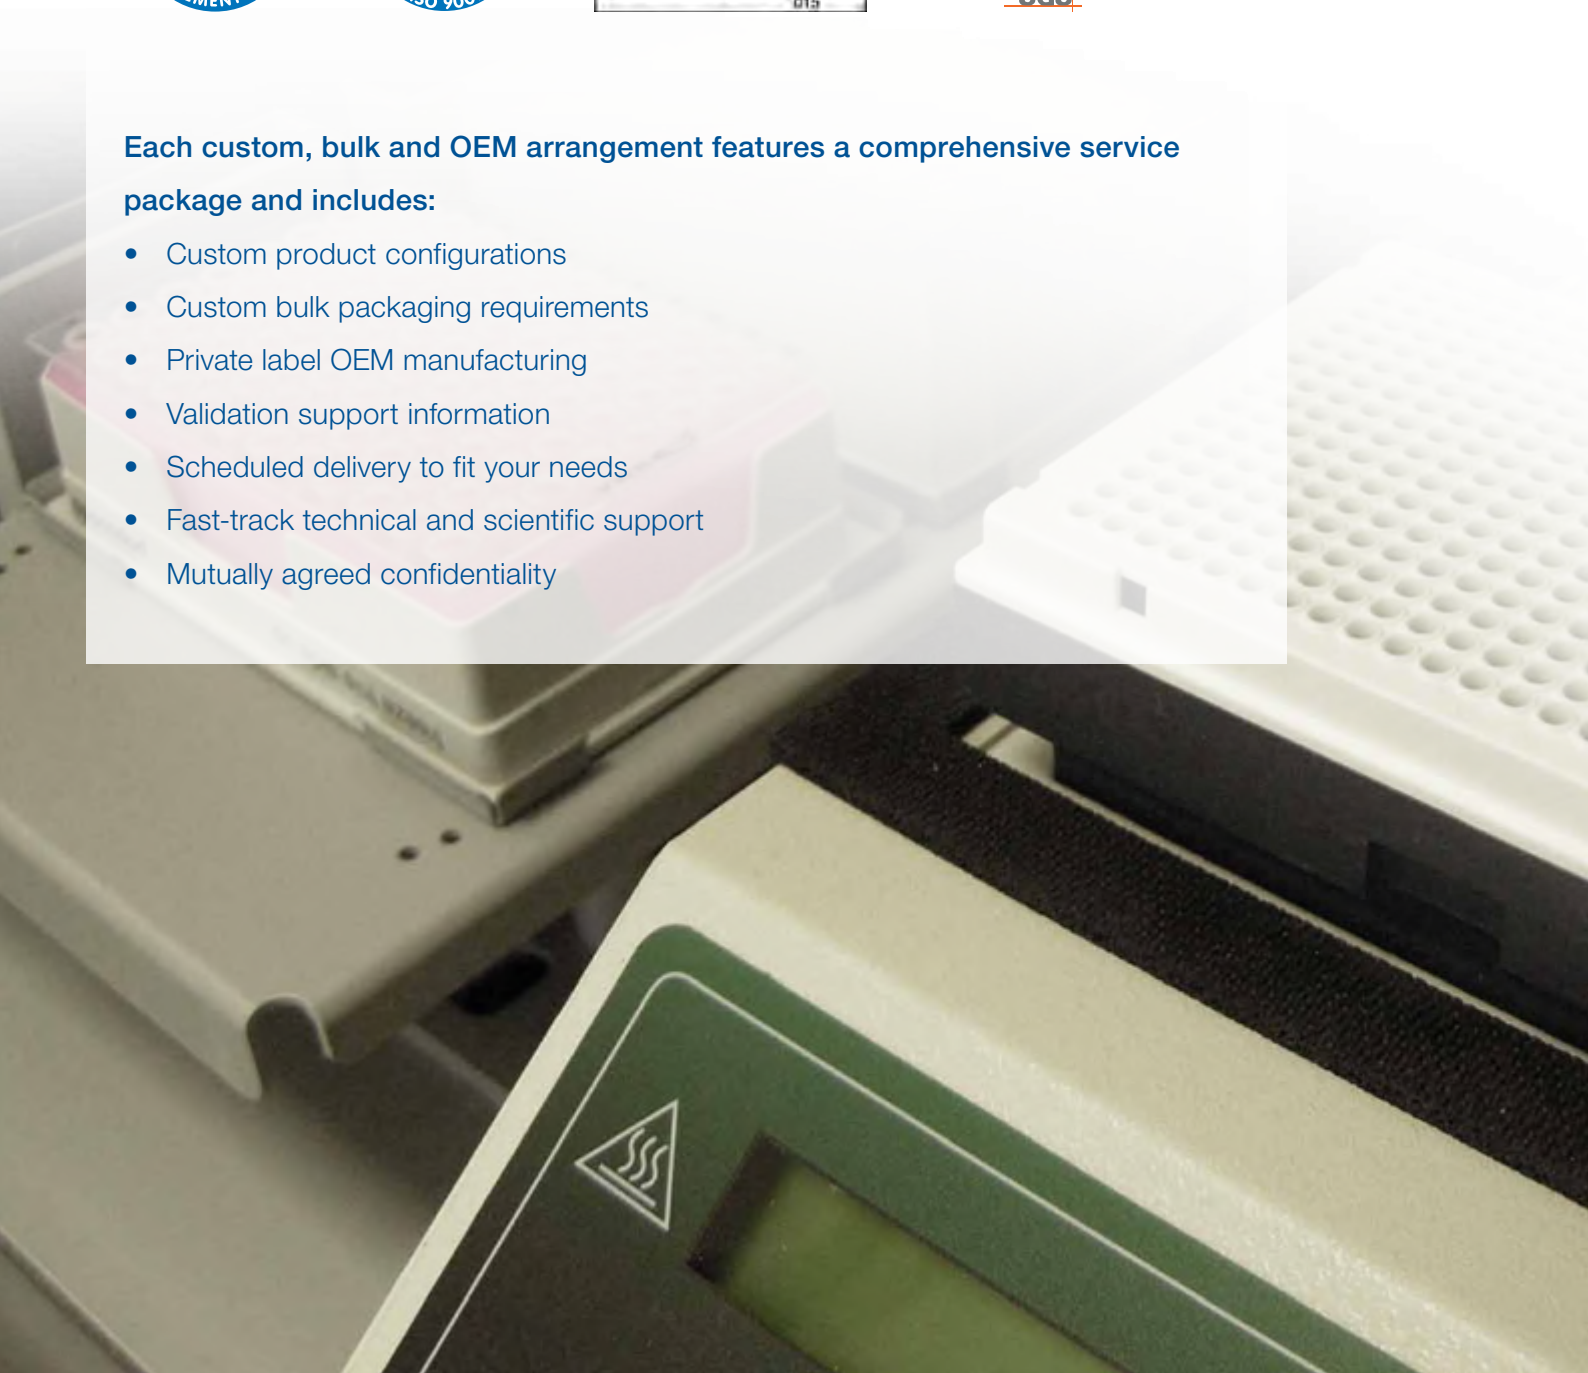

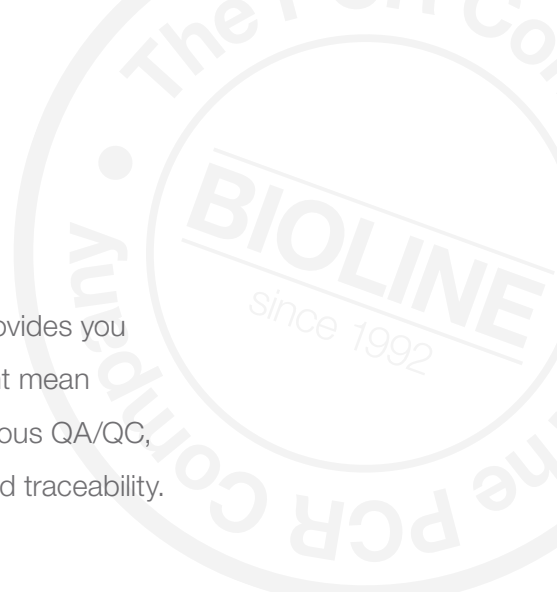

Confidence and trust

Our ISO 9001:2008 certification is a key element in our business and provides you with the confidence and trust you need. Certification and its enforcement mean consistency in our processes, reproducible quality in our products, rigorous QA/QC, retention of samples if needed and complete product documentation and traceability.

Each custom, bulk and OEM arrangement features a comprehensive service package and includes:

- Custom product configurations
- Custom bulk packaging requirements
- Private label OEM manufacturing
- Validation support information
- Scheduled delivery to fit your needs
- Fast-track technical and scientific support
- Mutually agreed confidentiality

Creative solutions to suit your needs

As a primary manufacturer, Bioline can accommodate requests from micro-liter to multi-liter quantities. We can manufacture special batches with unique formulations, blends and mixes to your specific requirements. Private labeling, products and kit packaging arrangements are also possible. We welcome on-site audits by our bulk, custom and OEM partners.

Flexibility at your service

Scale

- From micro-liter to multi-liter
- From mg to kg
- Special synthesis and batches

Format

- Any concentration
- Any combination or formulation
- Any volume
- Custom mixes and blends

Production Planning

- Batch reservation
- Lot retention samples
- Special testing as required
- Scheduled delivery
- Global delivery

Packaging and Labeling

- Any size
- Choice of tubes, vials and bottles
- Custom labeling
- Label design and printing
- Customized packaging
- OEM product finishing

Contact your local Bioline representative to discuss your specific requirements or email custom@bioline.com For further details visit our dedicated micro site www.bioline.com/custom
