

Chloramphenicol Solution

Shipping: On Dry/Blue Ice

Catalog numbers

Batch No.: See vial

BIO-87027 : 1 x 10ml

A Meridian Life Science® Company

Store at -20°C

Storage and stability:

Chloramphenicol Solution is shipped on Dry/Blue Ice and can be stored at -20°C for 12 months.

Concentration:

50mg/ml in 50% Ethanol

CAS Number: 56-75-7

Safety precautions:

This product is for R&D use only, not for human use, or any other use. Irritating to eyes, respiratory system and skin. May cause sensitization by inhalation and skin contact. Please refer to the material safety data sheet for information regarding hazards and safe handling practice.

T: TOXIC

F: FLAMMABLE

Notes

This certificate is a declaration of analysis at the time of manufacture Research Use Only.

Description

Chloramphenicol is a bacteriostatic agent that inhibits translation on the 50S ribosomal subunit, preventing peptide bond formation. Chloramphenicol resistance is mediated by acetyltransferase (*cat* gene), which inactivates chloramphenicol by acetylation.

Features

- Cost effective ready-to-use solutions
- Time saving
- Stable at -20°C
- Avoids handling of toxic or harmful substances
- No sterile filtration required

Applications

- Cell culture
- Plasmid selection
- Gene regulation
