Agarose Molecular Grade

Shipping: Ambient temperature

Batch No.: See bottle

Catalog numbers

BIO-41026 : 100g

BIO-41025 : 500g

BIOLINE

A Meridian Life Science® Company

Storage and stability:
The Agarose is shipped at ambient temperature and should be stored in a cool, dry place.

Expiry
When stored under the recommended conditions and handled correctly, full activity is retained until the expiry date on the outer box label.

Safety precautions:
Please refer to the material safety data sheet for further information.

Quality control specifications:
Agarose is extensively tested for efficiency and contamination prior to release.

Notes:
Research use only.

Trademarks:
HyperLadder is a trademark of Bioline Reagents Ltd.

Description

Bioline Agarose (DNase/RNase-free) is an extremely pure, high molecular biology grade agarose powder that has been extensively tested for RNase contamination. Bioline Agarose provides high resolution of DNA and RNA separated by electrophoresis and offers consistent resolution from lot to lot.

Features

- DNase/RNase-free
- Excellent value and clarity
- High gel strength
- Available as pre-weighed 0.5 g agarose tablets

Applications

- DNA/RNA electrophoresis
- Ideal for separating nucleic acids of a wide range of sizes, especially large fragments (>1kb)

Analytical Specifications:

Appearance:	White
Gel strength of 1.5% (w/v) gel	≥1200 g/cm^2
Melting temperature:	88-90 °C
Gelling temperature:	37 °C ± 2 °C
EEO:	0.05-0.1
Moisture:	≤ 8.5%
Sulfate:	≤ 0.14%
DNase/RNase:	None detected
