

100mM dGTP

Shipping: On Dry/Blue Ice

Catalog numbers

Batch No.: See bottle

BIO-39037

1 x 250 µL

Store at -20°C

Storage and stability:

dGTP is shipped on dry/blue ice. On arrival store at -20°C for optimum stability. Repeated freeze/thaw cycles should be avoided. For long-term storage, aliquoting is recommended.

Expiry:

When stored under the recommended conditions and handled correctly, quality is retained until the expiry date on the outer box label.

Safety precautions:

Please refer to the material safety data sheet for information.

Quality control specifications:

dGTP is extensively tested for contamination prior to release. dNTPs are >99% pure by HPLC and are free of DNase, RNase, Protease, phosphatase and nicking activity. Lithium salts, >99% deoxynucleoside triphosphates (HPLC, area %), <1% deoxynucleoside mono-phosphates and deoxynucleoside diphosphates.

Notes:

For research or further manufacturing use only.

Trademark:

HyperLadder is a trademark of Bionline Reagents Ltd..

Description

Ultra-pure dNTPs are enzymatically synthesized from premium quality raw materials, using highly specific production systems in our purpose built facilities. The manufacturing process eliminates impurities and PCR-specific inhibitors such as modified nucleotides, tetraphosphates and pyrophosphates commonly observed in other commercially available dNTP products. dNTPs are purified with quantitative HPLC and possess at least 99% purity.

All dNTPs are supplied as lithium salts in purified water at pH 7.5. Lithium salts have greater resistance to repeated freezing and thawing cycles than sodium salts, and lithium salt dNTP preparations remain sterile over the entire shelf-life due to the bacteriostatic activity of lithium towards various microorganisms.

Features

- Ultra-pure: >99% trisphosphate by HPLC
- Extended shelf-life of 24 months at -20 °C
- Free from PCR inhibitors
- DNase, RNase and Nickase free
- Manufactured in a purpose-built facility
- Custom, bulk and OEM nucleotide service

Applications

- Standard and long range PCR assays
- cDNA synthesis
- qPCR
- Microarrays
- DNA sequencing
- Labeling

dGTP Characteristics

2'-deoxyguanosine-5'-triphosphate solution

| SPECTRAL & HPLC ANALYSIS | PERFORMANCE |
|----------------------------------|--|
| λ_{\max} pH 7.0 | 252 nm |
| ϵ at λ_{\max} | 13.7 E x mmol ⁻¹ x cm ⁻¹ |
| A_{250}/A_{260} | 1.16 ± 0.05 |
| A_{280}/A_{260} | 0.66 ± 0.03 |
| Concentration | 100 mM ± 5% |
| Appearance | Clear Colourless Solution |
| pH of Solution | 7.5 |
| dNTP (HPLC Area) | ≥ 99% |
| dNDP (HPLC Area) | < 1% |
| DNases, RNases, Nicking Activity | Negative |

Associated products

| Product Name | Pack Size | Catalog No. |
|-----------------------|------------|-------------|
| dNTP Mix 100 mM total | 1 x 500 µL | BIO-39028 |
| dNTP Set | 4 x 250 µL | BIO-39025 |
| HyperLadder™ 1 kb | 200 Lanes | BIO-33025 |
| Agarose | 500 g | BIO-41025 |
